

Facilities Management, Maintenance & External Grounds Support Services

We deliver full facilities management so you can focus on your business, not your infrastructure.

Here's how:

- Building Maintenance: Heating, ventilation, air conditioning, plumbing and Electrical service and preventative maintenance.
- Project management and execution: Mechanical and structural renovations, and upgrades.
- Grounds services: Maintenance for all seasons'- lot painting, signage, and fence repair and installation.
- Customized facility maintenance packages to suit all client needs and budgets.
