

Bin Catalogue

ISO 9001:2015 and ISO 14001:2015 Certified

Acden Environment is the largest provider of waste management, recycling and landfill services in the Regional Municipality of Wood Buffalo and Edmonton. With a fleet of over 115 light and heavy duty vehicles, bins to suit all traditional waste streams and over 22 years of experience servicing Northern Alberta's Oil Sands, we provide exceptional, high quality service, customized to meet your needs. By utilizing our regional partnerships, we are able to expand our service offerings to meet your hazardous waste transportation needs.

As an Aboriginally owned business, our objective is to provide environmentally responsible, safe and innovative waste management solutions that ultimately benefit our customers, stakeholders, employees and our shared environment.

In addition to the selection of waste bins featured in this catalogue, we can provide the following equipment:

- Luger
- Roll off and roll off trailer
- Front load
- Truck mounted mobile crane
- Flatdeck with Moffett services
- Tractor with 53 foot sliding axle float service
- Super B trailers
